CLUB MEMBERS

SERVICE PROJECTS & ACTIVITIES

The Club’s 3-pronged goals in advancing the status of women are (1) Enrichment through skills development programs, sustained information dissemination, networking and teambuilding; (2) Empowerment through occupation skills training, and (3) Engagement of civic society through concerned individuals in supporting the Club’s projects for the disadvantaged sector of the community. To share the professional skills of members and others, the Club has held seminars on Community of Assets, Anti-Money Laundering Law, Detection of Children/Women Abuses—handling and interviews. On skills training, it has a scholarship grant to a 4th year college student, as well as member to member tutorial on computer/internet knowledge. Among the Club’s assistance projects for the underprivileged in the community are looking after the needs of the Women and Children Protection Unit at the Davao Medical Center on a monthly basis, donating noodle cups, new and used t-shirts for the women and children, and providing new and used books, coloring books, etc.

The President’s message to the club members, “This Club will be strong and effective for as long as we enjoy each other’s company by being ‘barkadas’ through teambuilding. Club meetings and civic work can be so much F U N.”

At the Davao Medical Center Women and Child Protection Unit (WCPU) with DG Dandy Gomez.
