SERVICE PROJECTS & ACTIVITIES

As younger generation Zontians, the Club theme centers on youth and teenagers in its service to the community and promotion of the status of women, be it in education, career development, leadership, or helping the under-privileged. The Club sponsored and supported the “Foundation Course for Marginal Drop-out Students” organized by the Agency for Volunteer Service. Eight secondary schools, totaling 113 students, have participated in the program; and 28 mentors, including Club members, have been recruited and involved in the program.

Another activity the Club has initiated is the mentoring project with Z girls. The project serves to help Upper Form students navigate their career and education options, and provide assistance in their transition to young adulthood.

ZCHK II members and AVS representatives meet on the “Foundation Course for Marginal Dropout Students” program.
