SERVICE PROJECTS & ACTIVITIES

This biennium, the Club donated ten sets of encyclopedia as well as other books and magazines to selected high schools. Promotion of literacy is a continuing Club program. It also supports Zonta Library Corners, and Toys corner at a selected pre-school. Health seminars for women were given on such topics as prevention of communicable diseases such as AIDS-HIV, reproductive health covering sexual health and behavior, maternal and child care, violence against women, and coping with the menopausal stage of women. Livelihood promotion among women is a Club concern, and a new project is in the works on employment and entrepreneurship development for selected groups in Pateros and Taguig.
